Vibe Coding Qualifier – Feature & Scoring Criteria

Three-Day Pre-Qualification Event – May 2025

Overview:
In this 3-day challenge, you will build a simple Event Management website for the 42 community. To qualify for the finals, you must complete all EASY features (minimum 40 points) and rank among the **top 16 participants**. Additional features increase your points and ranking.

Note: Rules and criteria may be adjusted by Devspace Club based on event needs or new additions during the competition.

Level	Feature	Points	Quick judge check
UI QUALITY	User Interface Quality.	20	Clean, intuitive, consistent UI & styling.
EASY	Events list with at least 3 upcoming events.	10	Home: 3+ events listed (title + date).
	Event detail page with description.	10	Detail page: shows event description.
	Responsive design; no console errors.	10	Test on different screens; console clean.
INTERMEDIATE	(admin features)		
	Admin page is protected.	5	Logged-out /admin: blocked or redirected.
	Admin can create a new event.	10	New event appears immediately after submit.
	Admin can edit an event.	5	Edit: changes show live.
	Admin can delete an event.	5	Delete: event gone, stays gone after reload.
	Search/filter works live.	5	Search: list filters instantly.
HARD	Real-time sync between tabs.	10	Create/edit in Tab A: Tab B updates live.
	Bulk CSV import (admin).	5	Upload CSV: multiple events added.
	Offline mode works (cached).	5	Go offline + refresh: event list appears.
ADVANCED	42 OAuth login.	10	Login: name in navbar.
	Live notification on event creation.	5	Create: message in chat or popup.
	Export CSV or calendar file.	5	Download works.
BONUS	Public GitHub repo with README.	5	Repo link: README present.
	Live deployment (latest GitHub commit).	10	Visit URL: site loads & matches repo.
	Improvements beyond core (optional).	10	Enhances functionality or user experience.

Qualification: You need at least 40 points (all EASY features) and must rank among the **top 16**. Ranking is based on total points (max 150).

Submission: On Day 3, you will receive a form to submit your deployment URL and repository link.
Important: If you push any edits or updates after the final submission deadline, **you will lose 20 points.**

Allowed: any framework, tools, AI help. Not allowed: copying others' work (plagiarism checks apply). Build cleanly, enjoy, and keep the vibe positive!
